

INDUSTRIAL VACUUM CLEANER

A45

THE A45 IS A REAL OVER PERFORMER IN ITS SEGMENT.

For a single phase dust collector, the A45 can compete with much larger machines. Fitted with 3 motors, producing a total of 3.5Kw, it is the ideal machine for a wide range of Trelawny's surface preparation equipment along with many other general cleaning applications.

Complete with a detachable, portable bin for containment the A45 offers fantastic performance and capacity in a compact and portable unit, due to its multi-purpose design the A45 is also suitable for collecting liquid which adds further to its versatile repertoire.

FEATURES & BENEFITS

- 60 Litre capacity for collection of dust and liquids
- Filter cleaning mechanism with vacuum gauge to ensure optimum performance
- Three single phase motors for performance and usability
- Class M primary filter with optional HEPA filter
- Detachable bin with option to use disposable bags
- Complete with 50mm tool kit

APPLICATIONS

- Perfect partner for small and medium sized surface preparation equipment such as TFP200 & TFP260 scarifiers, TCG250, TCG500 and TPG540 grinders
- Also ideal for use with many other types of construction equipment with options for dust extraction
- General cleaning of fine dust in many other industries

USE WITH TFP FLOOR PLANERS

USE WITH MHS FLOOR SCABLERS

USE WITH TCG FLOOR GRINDERS

INDUSTRIAL VACUUM CLEANER

A45

KEY CONSUMABLES & ACCESSORIES

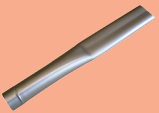

Image	Part Number	Description
	303.AA2638	80 to 50 mm steel hose connector Included as standard
	303.AA1019	Complete Hose + Cuffs Included as standard
	303.AA2592	Hand Brush - Dry surfaces Included in the accessory kit
	303.AA1045	Flat Nozzle Included in the accessory kit
	303.AR3025	Main polyester filter - 20.000 cm² - Class M Included as standard
	303.AA1028	Hose cuff (50 mm)
	303.AA1012	PVC Hose Max. 20 mtr
	303.AA1037	Connector piece

Image	Part Number	Description
	303.AA1403	Floor brush for wet use only
	303.AA1420	Floor brush for dry use only Included in the accessory kit
	303.AA1252	Optional Class H - HEPA cartridge filter
	303.AA2659	Double bend floor wand use with steel brush (AA1403) and brush steel (AA1420) Included in the accessory kit
	303.AA2665	Brush on wheels + floor attachment: 80-60mm steel hose connection
	303.AA1145/500	Optional cyclone for additional filter protection
	303.4500	38mm hose kit (10 meters)

TECHNICAL DATA

Model	Part Number	Single phase motors (N)	Output Power (Hp - kW)	Output flow (M ³ per h / Lt per sec)	Vacuum Rate (mm. H ₂ O)	Type of filter (material)	Filter surface (cm ²)	Isolation (CL)
A45 Bin Type 110v	303.4110	3	4 - 3	540 - 150	2500	Star / Polyester	20.000	1
